COVER MESSAGE

I just received your letters dated 9 December 2009 in response to the clarifying letters we sent you regarding the above indicated requests. Unfortunately, it appears you have mistaken our intent with those letters. You previously indicated that you would release to us any records that you released to another requester (presumably the James Madison Project). We sought to clarify that these requests ALSO covered records created SINCE the submission of the prior request, and so should have a broader scope of time than the previous requests. Your letters now say that these requests will be construed to cover records created AFTER the cutoff date of the previous requests (13 March 2009 and 11 August 2008, respectively). This appears to be a misreading of our letter. We want our requests to cover the same time period as the previous requests AND ADDITIONALLY cover the time period since the previous requests were submitted. In the interest of administrative efficiency, I suggest that you amend the previous requests to reflect a new cutoff date of 9 December and just process the requests together, rather than process one request for one time period and another request for an overlapping time period. If the prior requester in these instances is the James Madison Project, as I suspect, they can be contacted at 202-907-7945 if you wish to seek their approval, but I can tell you now that they will approve of the change.

DEC 17 2009
